Introduction

Sustainable Development Technology Canada (SDTC) is pleased to submit to the Minister of Innovation, Science and Economic Development, for tabling in Parliament, its annual report on the administration of the *Access to Information Act* for the reporting period commencing April 1, 2018 and ending March 31, 2019. This report is submitted in accordance with section 72 of the *Act*.

The *Access to Information Act* took effect on July 1, 1983. The ATIA gives Canadian citizens, permanent residents, any person and corporation present in Canada a right of access to information contained in government records, subject to certain specific and limited exceptions.

Who we are

Sustainable Development Technology Canada (SDTC) is a foundation created by the Government of Canada to support Canadian companies with the potential to become world leaders in their efforts to develop and demonstrate new environmental technologies that address climate change, clean air, clean water and clean soil.

Governance and oversight of the Foundation's activities are provided by an independent, 15-member Board of Directors made up of private and not-for-profit sector leaders from across Canada with a broad range of experience and expertise. This Board oversight includes accountability for the management of the Foundation's financial matters, strategic direction and business affairs. A list of the current Board of Directors and Members of the Foundation can be found at sdtc.ca.

Accountability to Parliament

In addition to being accountable to its Board of Directors, SDTC is accountable to Parliament through the Minister of Innovation, Science and Economic Development Canada (ISED).

In its accountability to Parliament, SDTC adheres to many federal Acts and has been asked to participate in a number of federal reviews and evaluations undertaken by federal government departments including the Office of the Auditor General of Canada and the Treasury Board of Canada Secretariat.

Budget 2017 characterized SDTC as a flagship program and included an additional investment of \$400 million over five years to re-capitalize the SD Tech Fund. This \$400 million commitment is the single largest investment to SDTC made by the Government of Canada since inception in 2001.

Since 2001, the Government of Canada has committed \$1.364 billion to SDTC.

Mission

SDTC's mission is to be a catalyst and convenor for Canada's cleantech ecosystem by helping Canadian entrepreneurs accelerate the development and deployment of globally competitive clean technology solutions.

To realize this mission, SDTC seeks to:

1. Fund the development and demonstration of new sustainable development technologies related to climate change, clean air, clean water and clean soil.

2. Foster and encourage innovative collaboration and partnering amongst the private sector, academia, not-for-profit and other like-mandated organizations to develop and demonstrate environmental technologies with respect to climate change, clean air, clean water and clean soil.
3. Promote timely diffusion of new sustainable development technologies across key economic sectors in Canada.

Access to Information activities

The President & CEO is the designated head of the institution for the *Access to Information Act*. The President & CEO, with support from the VP Partnerships, is responsible for the development, coordination and implementation of effective policies, guidelines, systems and procedures to enable efficient processing of requests under the *Access to Information Act*. The ATIP office consists of one ATIP Coordinator and relies on the advice and guidance of consultants and legal advisors on an as needed basis.

The activities of the Access to Information and Privacy office include:

- Processing requests under the *Act*;
- Developing and maintaining policies, procedures and guidelines to ensure the *Act* is respected by the institution;
- Promoting awareness of the *Act* to ensure SDTC's responsiveness to the obligations imposed on the government;
- Monitoring SDTC's compliance with the *Act*, regulations and relevant procedures and policies;
- Preparing annual reports to Parliament and other statutory reports, as well as other material that may be required by central agencies;
- Representing SDTC in dealings with the Treasury Board Secretariat (TBS), the Information Commissioner and other government funds and agencies regarding the application of the *Act* as they relate to SDTC;
- Supporting SDTC in meeting its commitments in relation to greater openness and transparency through proactive disclosure of information and the disclosure of information through informal avenues.

Interpretation of Access to Information statistical reports

From the above statistical analysis comparing this fiscal to the past three, SDTC received a typical amount of ATI requests and complaints. SDTC has implemented an *Access to Information and Privacy* processing software which reflects the reduction in average completion time. This software monitors and alerts the ATIP Coordinator to approaching deadlines. SDTC continues to work towards the implementation of an electronic records document management system which will significantly reduce the amount of time it takes to collect requested records.

During the reporting period SDTC received seven Access to Information requests and no complaints. SDTC works closely with the Office of the Information Commissioner to address ongoing complaints. Our procedures are highly detailed and well supported for the decisions we make when releasing information through the ATI Act. Therefore, the majority of complaints that have been filed against SDTC have been resolved as unfounded.

There were no formal training sessions conducted during the reporting period. The ATIP Coordinator however did attend quarterly community meetings hosted by Treasury Board Secretariat. Continuous advice and recommendations were provided by consultants and legal counsel on an as required basis to management and staff.

No audits were conducted during the reporting period.

No new institution-specific access to information related policies, guidelines or procedures were implemented in the institution during the reporting period.

For 2018-2019, the costs directly associated with the administration of the *Access to Information Act* are estimated at \$71,611.

Staff	\$10,754
Consultant fees	\$60,857
Office Equipment and Supplies	\$0

APPENDIX A - Statistical Report
